ABOUT SHARE

The European Union Support to Higher Education in ASEAN Region (SHARE) Programme facilitates student mobility through scholarships, and is underpinned by the unique European experience of building higher education cooperation at regional level. ASEAN and the EU have jointly designed the SHARE programme to support the region's ambitions to build an ASEAN Higher Education Area. Since 2015, the programme has awarded 489 intra-ASEAN scholarships for students from 8 ASEAN countries to undertake short-term studies at 32 ASEAN universities. The SHARE programme is implemented by a consortium led by the British Council, which includes the DAAD, Nuffic, and ENQA with the objectives of strengthening regional cooperation, and enhancing the quality, competitiveness, and internationalisation of ASEAN higher education.
