INVESTING IN YOUR FUTURE

HIGH QUALITY EDUCATION

The history of Hungarian higher education goes back more than 650 years and builds on its unique academic heritage by integrating innovation, creativity and cooperation.

EUROPEAN DEGREE

Studying in Hungary means studying in Europe. Degrees earned in Hungary are recognised internationally and help you to get ahead in the global job market.

AFFORDABILITY

The extremely favourable cost-to-value ratio of Hungarian higher education and the affordable living costs make studying in Hungary a great investment. Scholarship opportunities are also available.

CENTRAL LOCATION IN EUROPE

Hungary is conveniently located in the heart of Europe. Discover unspoilt nature and numerous World Heritage sites of the country as well as other European cities within easy reach.

UNFORGETTABLE CULTURAL EXPERIENCE

The country has a 2000-year-old history and offers a thrilling cultural life. With its vibrant student communities and its enriching cultural scene you will never be bored.

HUNGARY IN BRIEF & HUNGARIAN HIGHER EDUCATION

SIZE:	93,000 square kilometres
DIMENSIONS:	250 km (North-South) and 524 km (East-West)
POPULATION:	9.7 million
CAPITAL:	Budapest (1.7 million)
CURRENCY:	Hungarian Forint (HUF)
TIME ZONE:	CET (GMT +1)
CLIMATE:	dry continental with four seasons
LANGUAGE:	Hungarian

65 higher education institutions in Hungary

35,000 international students from **164** countries (10% of the student population)

1,300 academic programmes in foreign languages in **44** higher education institutions

HUNGARIAN HIGHER EDUCATION ACCORDING TO INTERNATIONAL STUDENTS

THE TOP 3 REASONS FOR STUDYING IN HUNGARY: HIGH QUALITY OF EDUCATION, GETTING TO KNOW ANOTHER CULTURE AND AFFORDABLE PRICES.

70%

OF INTERNATIONAL STUDENTS WOULD DEFINITELY COME BACK TO STUDY IN HUNGARY.

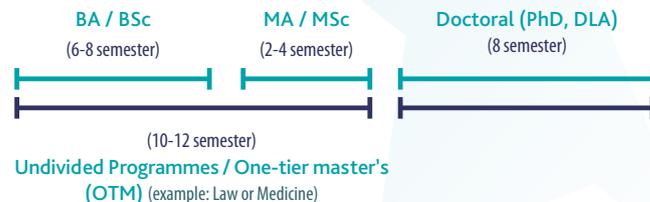

26%

OF INTERNATIONAL STUDENTS WOULD PROBABLY COME BACK TO STUDY IN HUNGARY.

SPORT, ENTERTAINMENT, TRANSPORTATION AND ACCOMMODATION WERE RATED 4 OUT OF 5 BY INTERNATIONAL STUDENTS.

BASIC STRUCTURE OF STUDY PROGRAMMES

"I like the high quality of lectures offered by my university and the professionalism of our professors. I love that my programme provides international experience, since I can get to know people from all around the world."

BUDAPEST BUSINESS SCHOOL – UNIVERSITY OF APPLIED SCIENCES

Budapest Business School (BBS) is one of Hungary's market leading and largest universities, educating more than 16,000 students. BBS was established as a result of the Hungarian higher education integration and on 1st January 2000 its three legal predecessors were merged: the College of Commerce, Catering and Tourism; the College of International Management and Business; the College of Finance and Accountancy.

In 2016 BBS earned the title 'University of Applied Sciences'.

Graduates of predecessor institutions and those who obtained their degrees from BBS during recent years have become recognized experts and professionals in their field, and are in great demand in both the domestic and the international labour markets.

As a foreign student wishing to study in one of the faculties of BBS, there are several programmes to choose from, both on a Bachelor's or a Master's programme in English, as well as the Doctoral School

of Entrepreneurship and Business. Some of them are also in German or French.

Year by year, more and more new students study at BBS from different countries of the world

One of the reasons behind this large increase is the wide range of opportunities they can choose from: some choose to study as a Stipendium Hungaricum scholarship holder student, others as a Christian Youth scholarship holder student, or they can take part in the Erasmus+ programme, but it is also popular to study as a self-financing student at Budapest Business School.

BUDAPEST UNIVERSITY OF TECHNOLOGY AND ECONOMICS

As a BME diploma is accepted all over the world, the mission of our university is to issue prestigious diplomas which are amongst the most highly regarded in the labour markets of Hungary as well as Central and Eastern Europe, and to train graduates who would be the most sought after by the best companies and institutions.

The predecessor of Budapest University of Technology and Economics, the Institutum Geometricum, was established in 1782. During the past 236 years the professors of the university have strived to provide an outstanding quality of education. This has earned the university an international reputation, attracting students as well as professors from all over the world.

Our university has eight faculties: Civil Engineering, Mechanical Engineering, Architecture, Chemical Technology and Biotechnology, Electrical Engineering and Informatics, Transportation Engineering and Vehicle Engineering, Natural Sciences, Economics and Social Sciences.

Here, students learn about sustainable energy, clean water, safe transport on roads and bridges producing less pollution, buildings for comfortable living and working, machines and robots for work and for amusement, fast and reliable communications, medical equipment that assures a good quality of life for the individual and can be financed by society, and healthy food for us all. We provide you with this vital knowledge and these skills to help you make your own contribution and to be able to do your best for your colleagues, company and society.

Eötvös Loránd University (ELTE)—in terms of student and staff numbers, quality of education and research, and its international relations—is a prestigious institution of public higher education in Hungary, operating continuously since 1635.

As a top-ranked research university in Hungary, it is the most popular higher education institution among applicants as well as alma mater of five Nobel laureates and leading figures in technology, public policy, and culture in Hungary. Currently about 30,000 students study at 8 faculties and 2 individual institutes, with about 3,000 international students from over 100 countries.

ELTE has widespread international relations for cooperation and exchange all over the world, which offers a large number of possibilities for study-abroad semesters to Hungarian and international students at ELTE. The degree programs are accredited by the Hungarian Accreditation Committee and course credits are transferable in all countries of the European Union.

Wide-ranging services, an excellent mentor system, Orientation Week, and cultural programs all ensure that you find your friends and place on campus and in the vibrant city of Budapest.

Eszterházy Károly University (EKU) is one of the oldest higher education institutions in Hungary where long traditions support future-oriented education, talent management and research activities. Currently serving more than 8,000 students, among them an increasing number of international students from all over the world, it provides intensive research opportunities and quality education due to its ideal student-professor ratio, excellent professors, company relationships and internship possibilities. The five Faculties of the university are located on 4 campuses within easy reach from the capital of Hungary and the four towns hosting them offer its students a friendly atmosphere with a reasonable cost of living compared to other European cities.

International students can choose from a wide variety of accredited study programmes offered in English in several fields, including Computer Sciences, Fine Arts, Education Sciences, International Relations, Business and Management, Tourism

and Catering and Agricultural Sciences. For international students, EKU offers accommodation in dormitories and various services such as the mentoring system, intercultural training and extra-curricular programmes.

Kaposvár University is one of the largest universities in the Southern Transdanubian region of Hungary. It was founded by the Hungarian Parliament on 1st January 2000 when operating faculties and colleges were integrated in Kaposvár. Currently, education and research activities are carried out in four faculties: (the Faculty of Agricultural and Environmental Sciences, the Faculty of Economic Science, the Faculty of Pedagogy and the Faculty of Arts) and in three partner institutes: the Pannon Equestrian Academy, the Feed Crops Research Institute, and the Bőszénfa Game Management and Landscape Centre.

All our students and teachers have benefitted from the primary results of the various merged institutions of higher education: our work is carried out in an open and flexible educational system which can easily meet the challenges and expectations of the modern age.

Recent graduates from the faculties of Agricultural Sciences, Economics, Pedagogy and Arts are able to better meet the requirements of the national and European labour markets due to the successful operations of high-quality education and research activities.

At present, our University is a modern, dynamic and innovative institution of Higher Education where students can responsibly invest in their future. We hope that the information provided in our introductory brochure will be of interest to you and will pave the way for future cooperation.

Óbuda University (ÓU) is the number one practice-oriented technical University in Budapest, Hungary with 130 years of fine tradition. The university creates a vibrant community around 11,500 students, with hundreds of International students attending from over 50 countries worldwide. ÓU has 6 faculties and 4 campuses (2 in Budapest, 1 in Székesfehérvár and 1 in Salgótarján), 3 doctoral schools, and 8 research centres. ÓU has one of the most significant robotic research facilities in the region.

Our aim is to maintain a high quality, student focused higher education which provides strength in research, spanning a diverse set of intellectual disciplines and applications within the fields of engineering while serving science and the future. We tutor our students to effectively model and solve problems that may arise within the branches of engineering, natural sciences, industry and management. The curriculum emphasises application-oriented

mathematics, practical applications, modelling and designing skills, computer programming and high-performance computing.

Diplomas issued at Óbuda University are accepted by and transferable to all countries within the European Union.

Semmelweis University, the oldest medical school located in Budapest, Hungary, has been a leading biomedical institution of higher education in Hungary and Central Europe for the last 250 years. Its three-pillar mission is education, research and innovation and healthcare. Semmelweis University is among the top 500 universities in the world, and among the top 50 in Europe. The University provides world renowned practice-oriented education based on a strong theoretical foundation.

The University boasts programmes in English, German and Hungarian and has various international campuses. Diplomas issued by Semmelweis University are recognized in the European Union and by many other countries worldwide. University students come from over 70 different countries, and one-third of the almost 11,000 students are international. The University's six faculties: Faculty of Medicine, Dentistry, Pharmacy, Health

Sciences, Health and Public Services and the András Pető Faculty of conductive education.

Degree programmes for international students:

- Medicine (MD), Dentistry (DMD), Pharmacy (Dr. Pharm)
- BSc in Nursing, Midwifery, Dietetics, Physiotherapy, Optometry, Health Visitor, Health Tourism Management
- MSc in Nursing and in Physiotherapy

Research, development and innovation comprise an important role in the University's activities. The School of PhD Studies' seven Doctoral Schools offer over 40 programmes in Hungarian and English. The University is Hungary's largest healthcare provider.

The university is located in the North West of Hungary, halfway between Budapest and Vienna. Győr retains the baroque charm of its well-preserved city centre, with a vast array of cultural as well as natural treasures. Győr's position at the heart of Central Europe means that travel to many of the region's capital cities is easy.

The University's 24 English-taught study programs ensure an excellent quality of education covering the fields of engineering, IT, architecture, pedagogy, economics, international relations, law, administration, social work, medicine and health, musical arts and agriculture, at all academic levels from Bachelor's to Doctoral.

On the University's main campus, situated on the banks of a tributary of the Danube, and 5 minutes' walk from the city centre, you can find the Halls of Residence, the state-of-the-art

library, cafés, bars, restaurants and opportunities for 25 sports and cultural activities.

For students who are searching for excellent teaching and a full social life on a very friendly and secure campus within a beautiful green environment, Széchenyi István University is the choice for you!

Szent István University (SZIU), Hungary's flagship life sciences university consists of 8 different faculties for study and research hosting approximately 11,000 students. With parts of its history dating back over 165 years, SZIU blends Hungary's rich traditions with cutting-edge technology to meet the needs of its students in today's competitive labour markets.

SZIU understands the importance of internationalization and promotes a variety of international activities. It is among our top priorities to strengthen our external relations on local, regional, national and international levels. With active partners on almost every continent (more than 250 partner institutions in 50 countries), SZIU students and staff operate on a global scale to gain and share the essential knowledge for success in the globalized world. We see this as the cornerstone for a more secure tomorrow and are proud to be a vital part of it.

TOMORI PÁL COLLEGE

Tomori Pál College is a private academy which was founded in 2004. The primary objective of the college is providing high quality study opportunities for students from all over the world who wish to continue their studies in higher education.

Accredited by the State of Hungary, degrees issued by the College are recognized and accepted across the whole of the European Union.

Our college offers the following programmes:

- Pre-Course
- Business Administration and Management (BA)
- International Business Administration (BA)
- International Relations (BA)

Why choose Tomori Pál College?

- Students may choose to start MA (Master) courses after graduation in the territory of the European Union.

- Our students also have the opportunity of participating in the ERASMUS program.
- The autumn semester is from September to January and the spring semester from February to June. We make every effort to ensure that students can continuously join the courses, even during the academic year.
- We offer practice-oriented programmes in small classes, focusing on skills development.

We offer accommodation to all of our students at the Budapest campus, in rooms for 2-3-5 people, all equipped with a private bathroom.

With its 7 campuses, 363 buildings, 27,000 students, 8,740 full-time employees and 17,7 million medical procedures per year, the University of Debrecen tops national statistics. The University of Debrecen has the second largest student body in the nation in total and the highest number and proportion of international students (5,664 and 21%, respectively). The most popular choices for the majority of them continue to be in medical fields. UD offers almost 80 courses taught entirely in English (with solidly increasing numbers) on every academic level (BA/BSc, MA/MSc and PhD).

Fields of study include Medical and Biological Sciences, Dentistry, Pharmacy, IT, Engineering and Business Studies among others. The top research fields of the University include Medical and Health Sciences, Pharmaceutical Industry, Food Industry, Natural Sciences, Electronics, and Information Technology. The academic potential of the university is clearly indicated by the annual figures

of 3,000–3,500 publications as listed by sources like Scopus, WoS, MTMT and iDEa Academic Profiles. Due to its broad range of international connections, the university has signed cooperation agreements with several hundred partner institutions in the past.

The University of Dunaújváros is a university of applied sciences with a cosy and true family atmosphere in the central region of Hungary. The town of Dunaújváros is located on the banks of the river Danube, 70 km to the South of Budapest, the capital of Hungary.

We offer the following study programs to our students in the English language:

- Mechanical Engineering BSc and MSc
- Materials Engineering BSc
- Business Administration BA
- Computer Science Engineering BSc
- Communication and Media BA
- Technical Management BSc
- Teacher of Engineering MA

As a multicultural student community in our campus, 15% of our total student population are international students from

25 countries, such as Brazil, Azerbaijan, India, Jordan, Kazakhstan, Morocco, Portugal, Russia, Spain, Syria, Tunisia and Turkey. We have actively participated in Erasmus+ KA103 and KA107 student and lecturer mobility programs for many years as well as in the Stipendium Hungaricum scholarship program. The modern educational infrastructure of our campus not only boasts the usual facilities for higher educational studies (classrooms, lecture halls, library, dormitories), but also has a TV studio, Students' Leisure Centre (Campus Club), sports halls as well as numerous laboratories.

The University of Pannonia has always responded flexibly to the manifold challenges and needs of society, offering internationally competitive quality education and research opportunities as well as functioning as an active contributor to the economic, scientific, and cultural development of the region. The university is considered to be the heart of the Central-Transdanubian region due to its commitment to broaden and promote high quality education. For the students, this provides an opportunity to choose from among several majors, including numerous bachelor's, master's and doctoral programmes as well as vocational higher education and postgraduate specialist training at five faculties:

- The Faculty of Business and Economics,
- The Faculty of Engineering,
- The Faculty of Information Technology,
- The Faculty of Modern Philology and Social Sciences,
- The Georgikon Faculty (Agricultural Sciences).

The University of Pannonia emphasises life skills, such as problem-solving and communication, which enables the students to meet the societal and economic requirements at national and international levels. The city of Veszprém provides numerous cultural, social and tourist activities.

Since it opened its doors in 1367, University of Pécs has positioned itself high on the higher education world map among Universities which build up future generations of modern society and offer excellent education. Being one of the most internationalized universities in Hungary, UP is today home to more than 4500 foreign students from over 114 countries.

Students can take advantage of a wide and varied selection of almost 70 programs, covering arts, business, social and natural sciences, IT, engineering and medicine. These are all taught in English, which gives the university its international status.

Prospective students who can't commit to a full degree are welcome to visit one of the summer schools or visit for a semester or two on the various scholarship schemes available. This way, they'll still get a taste of Pécs, the multi campus town, where history and tradition meet modern life. Choosing to study in

the European Capital of Culture of 2010, one becomes a part of a lively multicultural community.

UNIVERSITY OF PHYSICAL EDUCATION

The University of Physical Education (TE) and its institutional predecessor is one of the oldest higher educational institutions in Europe in the field of body culture, including sports and education, TE combines its traditions and culture to match the new challenges of a knowledge-based society, while taking into consideration various socio-economic demands.

TE preserves its traditions and permanently develops in harmony with what the given period requires. This is why in its educational strategy, theoretical and practical knowledge complement each other. In order to ensure competitive knowledge for the students in each field of study, the amount of sport trainings has increased. While developing its educational content, our institution became aware of the practice-based demands formulated by the representatives of the sport federations and educational institutes,

some of the future utilizers of knowledge. As a result, the training programs have been harmonized with labor market expectations.

The mission of the University is to train specialists who, as future intellectuals, possess a high level of theoretical and practical knowledge applicable in the various fields within sports.

The legal predecessors of University of Sopron have a long history with the oldest one dating back to 1735. Located beside the Austrian border, in the "Most Loyal City" of Hungary, it provides excellent education at four faculties specialising in forestry, wood technology, pedagogy and economics.

Our academic offer includes programmes in three languages: Hungarian, English and German. Due to low student-to-teacher ratios, our students have the advantage of personalized approach to learning. The university provides all first-year students placement in one of its comfortable dormitories.

The campus is located in a nature conservation area, the Botanical Garden, which also serves instructional purposes with its collection of living plants.

We conduct our programmes according to the European Qualifications Framework of the Bologna Process; all programmes have been accredited by the Hungarian Accreditation Committee.

Sopron plays a special role within the region Western Transdanubia, one of the most pleasant, fastest developing regions of the country. It is a real privilege to work, study, or live in Sopron. For Sopron graduates, the years spent here are usually the highlight of their lives.

The University of Szeged (SZTE), with a history dating back to 1581, is located in the city of sunshine. Szeged attracts thousands of young people due to its lively, urban lifestyle, colourful festivals and its safe environment. According to QS World University Rankings SZTE is the best Hungarian University in 2020. Outstanding professors have worked at the University, including the Nobel Laureate Albert Szent-Györgyi (1937), who was the first to isolate Vitamin C. The University of Szeged is one of the largest universities in Hungary, and the efforts of its nearly 21,500 students and 6,500 employees at the 12 university faculties help make the institution the regional centre of knowledge in Hungary and Central Europe. The number of international students is constantly increasing and they make up 20% of the total number of students. A mentor system assists students in settling down in Szeged and finding their way around the University. The SZTE offers international study programmes at 12 faculties. In most cases the language of

the instruction is English, but we offer programmes in French, German and other foreign languages in the following study fields:

UNIVERSITY OF VETERINARY MEDICINE BUDAPEST

The University of Veterinary Medicine Budapest (UVMB) is the only veterinary university in Hungary. It is one of the oldest veterinary schools in the world and the most international veterinary campus in Europe. The combination of the more than 230-year-old tradition with the most innovative educational and technological tools ensures that graduates of the university are equipped with the most up-to-date knowledge and are ready for the rewarding and challenging veterinary profession after their studies.

Our graduated students are prepared to:

- cure animals at animal clinics worldwide,
- work on farms with small and large animals,
- specialize in exotic or wildlife species,
- become a researcher,
- make their voice heard in the State Office of veterinary hygiene and public health sector.

The curriculum consists of 5.5 years and it leads to a DVM (Doctor of Veterinary Medicine) Master's degree. Our degree is recognized in the EU (E.A.E.V.E. accreditation) and will be recognized in the USA and Canada after our AVMA accreditation goes through (the preparation for the accreditation has begun already).

Our programme is highly practise oriented– students have around 1800 contact hours with animals. At the well-equipped UVMB clinics they get practical training in every vet related field.

The Hungarian Rectors' Conference (HRC), as the unique representative body of local universities, is proud to be one of the oldest and most prestigious organizations in Hungary responsible for the university sector, academic cooperation and internationalization of higher education.

HRC operates with a young and enthusiastic team, with strong engagement towards development, focusing on innovative solutions and keen to achieve outstanding success together with its partners in the realization of joint higher education projects.

HRC promotes Hungarian higher education worldwide, organizes roundtables, conferences and workshops, manages incoming and outgoing delegations' visits, and coordinates short-term study (e.g.: summer university) and scholarship programs. HRC enhances collaboration with international partner organizations and promotes bilateral cooperation between Hungarian and

international higher education institutions, whilst also participating in European Union policy-making and EU funded projects.

HRC is in active cooperation with ministries, embassies (both in and out of Hungary), public foundations, national agencies, universities, and the press.

Tempus Public Foundation (TPF) is a non-profit organization established in 1996 by the Hungarian Government, with the task of managing international cooperation programmes and special projects in the fields of education, training and EU-related issues.

The Study in Hungary initiative is managed by the Tempus Public Foundation and supports the internationalisation of Hungarian higher education by enhancing student mobility and institutional partnership building.
