How to choose a university in the Netherlands

https://www.studyinholland.co.uk/about_dutch_universities.html

Research Universities in the Netherlands

Research universities offer more academically rigorous education that focuses on specific subjects. Undergraduate degrees at Research Universities typically take three years to complete and usually do not include work experience. There are 13 Research Universities in the Netherlands and 12 of them teach bachelor's degrees in the English language. Between them, they now offer around 185 Bachelor's degrees in English. For a full list of undergraduate courses taught in English at research universities please visit the Study in Holland's course finder:

University of Applied Sciences in the Netherlands

Universities of Applied Sciences offer profession-orientated programmes that are designed for students who are looking to enter a particular career upon graduation. Undergraduate degrees at Universities of Applied Sciences typically take three or four years and will always include a work placement and usually a period of time studying abroad. There are 41 Universities of Applied Sciences in the Netherlands. The largest Universities of Applied Sciences typically offer a range of courses in English and you can now find around 300 such degrees. The style of education is more practical and there is a strong emphasis on group work and teaching skills necessary for the work place.
